**STARLIGHT CEILING**

Raise the curtain on a whole new level of movie viewing with a Starlight Ceiling. Featuring fibre optic stars, it not only creates a stunning, mesmerising atmosphere for your home theatre but also helps enhance the sound.

**LINGER HOME THEATRE SEATING**

Nothing dampens an entertainment experience quite like an uncomfortable seat. Our range of luxury home theatre seating comes packed with features: power reclining, storage space and cup holders, power headrests, USB ports, removable trays and an exclusive app to keep all your popcorn in one place.

**ACOUSTIC WALL CURTAINS**

Acoustic Wall Curtains are perfect for blocking out sound and light, and can be motorised allowing you to control them from your smart phone or tablet. Made of heavy duty, acoustically absorbent fabric to keep the sound in your home theatre, not next door.

**ACOUSTIC TREATMENT AND WALL ART**

An acoustic sound treatment can dramatically improve the acoustics of any home theatre. Available in a range of colours and finishes, allowing you to find the perfect balance of elegance and functionality, they can even be matched to your audio/video equipment and room decor.

**GLOW SCREEN**

Give your cinema screen the attention it deserves with an attention grabbing LED light behind it. Now you can fully complement your home cinema’s design and decor whilst dramatically enhancing the room’s ambiance. Available in a choice of colours and settings.

There are lots of ‘smart’ products available today, but it isn’t until all of your devices work together in orchestration that you experience the real magic of a smart home. With Control4 you can coordinate all the technology in your home into a single system with one-touch control.

HOME THEATRE
Ready to impress your guests? Press the ‘movie’ button on your remote and the projector screen descends, the Blu-Ray player rises up, the surround sound is activated and the lights dim. Add some immersive, high-resolution audio and high-definition video and you’ll have a jaw-dropping home cinema that rivals any commercial cinema.

INTERFACE
How would you like to control and interact with your home? A handheld remote for your video experience, a touch screen to browse and play music, or a keypad to manage lights, shades, audio and more? Or would you prefer no interface at all, and rather use voice control? Whatever your choice, we can make it easy.

EVERY ROOM AUDIO
Stream high-resolution music anywhere, or everywhere. Wake up in the morning listening to your favourite Pandora channel, or walk in the door at the end of a long day to your favourite Napster playlist. With our Triad audio solutions, you’ll enjoy an elevated sound experience anywhere from the kitchen to the pergola.

MULTI-ROOM VIDEO
Deliver superior sound, stunning video and an incredible entertainment experience in every room throughout the house. Share your entire movie library, streaming video and satellite channels in every room with no need for set-top boxes and multiple video sources.

VOICE-CONTROLLED LIGHTING
Ask Alexa to light the way when you walk into the house with your arms full. Set the mood by asking Alexa to lower the dining room lights to 40%. Or turn off every light at once from the comfort of your bed when it’s time to turn in.

BLINDS & SHADES
Raise, lower or tilt individual window coverings or a grouping of motorised blinds or shades in your home. Control works with some of the world’s leading shade manufacturers to ensure a seamless experience through manual control or by automated settings.

INTERCOM ANYWHERE
You’re overseas and someone needs urgent access to your home. No problem. When they press the intercom on your gate or front door you can give them instant access using your smart phone or tablet. Or use it to call any touchscreen in the home to see how your kids are doing. It’s the perfect blend of peace of mind and home control.

We will take the time to show you what is on offer, what system will suit your needs, answer any questions you have and give you an informed unbiased opinion.

Make your presentations come alive in the boardroom. Create dedicated music zones throughout the workplace. Inform and entertain with projected, multi or large screen vision and sound systems to match. From security, energy management, lighting and climate control to multi-room audio and vision, discover full workplace integration that’s all connected and easy to use. We can plan, schedule, deliver, professionally install and provide operating advice.

Contact your nearest West Coast HiFi Store for a FREE consultation in-store or we can come to you.

Commercial installations? Yes, we’re experts in that too.

Take control in your home with Control4
What makes us the experts in home entertainment?

West Coast HiFi has been locally owned and operating for more than 25 years. All our staff have in-depth product knowledge, as well as the expertise to assess what will best suit each customer’s needs based on individual circumstances and budget. With our experienced audio-visual team we are perfectly placed to ensure that you get the right advice and the right product selection to create the perfect in-home experience.

These are just some of the ways we make your West Coast HiFi experience better.

**Guarantee applies where the other retailer’s final price, inclusive of delivery, taxes, fees and charges, is lower than our price on the day that the price guarantee is requested and that the item is available in a West Coast HiFi store.**

Should you ever find a competitor offering the same item advertised at a lower price - and available in a physical store in Western Australia - we’ll match that price. Guaranteed.**

To ensure you get the right solution for your home, we created sound rooms in our stores so you can test for sound quality, detail and balance, and appreciate the design and functionality of the products and brands we offer.

West Coast HiFi offer a range of finance options to suit your needs. Our 24 Months Interest Free option is available all year. Alternative options exist and vary at different times of the year. Please ask our sales team for assistance.

Every day of the year, our stores offer a range of clearance items with massive savings across a broad selection of brands and products. Each store carries different clearance stock at any one time. Look for the Clearance Centre on our website or ask in-store.

As the ‘Experts in Home Cinema’ we have our own teams of professional installers who can deliver, set up and install your new home cinema and help with operating advice to give you the ultimate home entertainment experience.

With our obligation-free initial consultation, our audio-visual specialists offer unbiased recommendations and solutions that ensure the final result is unique to you, your environment and lifestyle.
