Bring the family together for the Big Game and those Hollywood moments... Even better, you can run it all from a simple App.

YOUR PLACE *DESERVES* A HOME THEATRE!

Most people have the perfect room for a Home Theatre, but simply don't know where to start or think it'll be too expensive.

Come into our showroom today and discover what's possible with the very latest in home entertainment.

We have working displays and home theatre rooms for you to explore, experience, and easily compare. Paired with our staffs experience and expert knowledge, we can help create the perfect home theatre for you.

If you require something more tailored, we can come to you for a free measure and quote at a time that's suits! From there we can customise and plan the perfect installation and advise the

very best home entertainment system for you and your budget. All quotes are obligation free. Simply call or email us today to setup an appointment.

As the 'Experts in Home Cinema' we have our own team of industry leading installers who will have you up and running with minimal fuss. Our team of installers will deliver, professionally install and even show you how to operate.

All that's left is for you to sit back, relax and enjoy quality vision and sound like never before.

Lay-by and Interest Free Finance Available

*Come in store to check out our amazing VIP products or arrange a **FREE** on-site quotation in your home cinema.*

ACOUSTIC WALL CURTAINS

Acoustic Wall Curtains are perfect for blocking out sound and light, and can be motorised allowing you to control them from your smart phone or tablet. Made of heavy duty, acoustically absorbent fabrics to keep the sound in your home theatre, not next door.

Dolby Atmos is a unique technology where speakers are placed overhead, with a multi-layer approach to the sound design. On top of the conventional channel-based soundtrack, object-oriented mixing is used to layer dynamic sound elements, so regardless of the cinema's speaker setup, independent sound elements can move around freely in a three-dimensional space.

Fills the Home Cinema with Breathtaking Sound
Sound comes from all directions, including overhead, to fill the cinema with astonishing clarity, richness, detail, & depth.

Puts Sounds into Motion All Around You
The sounds of the on-screen story move all around you in 3D space so you feel like you're inside the action.

Creates a Powerfully Moving Entertainment Experience
It's sound that excites your senses and inspires your emotions to deliver the full impact of entertainment.

The end result of all this is a more involving and pinpoint accurate experience than conventional 5.1 or 7.1 could ever offer. Instead of effects simply appearing behind or beside you, Atmos delivers a 3D reproduction of effects such as an airplane flying overhead, the utter sonic immersion of being in a jungle, or something as simple as the rain falling.

Welcome to a world of sound that delivers the full impact of entertainment – it will move your mind, body, and soul like no other.

The Epic 4K pack wasn't 'epic' enough for you? Why not go XL? This package represents an almighty upgrade on the already EPIC DOLBY ATMOS package.

ACOUSTIC TREATMENT AND WALL ART

The application of Acoustic sound treatment can dramatically improve the acoustics of any home theatre. There are a range of colours and finishes for each panel, allowing you to find the perfect balance of elegance and functionality. They can even be matched to your audio/video equipment and room decor.

Take your styling further and match your acoustic treatment with a high quality Macro wallpaper. Ideal for both for residential and commercial applications, each design can be customised to fit any wall size and style.

Next Level Acoustic Design Service

For guaranteed excellence, have our audio engineer personalise your acoustic design to professional specification & calibrate your audio/visual equipment to the highest quality.

GLOW SCREENS

Give your cinema screen the attention it deserves by adding an attention grabbing LED light behind it. Now you can fully complement your home cinema's design and décor whilst dramatically enhancing the room's ambiance. Glow Screens are available as an option on any of our Cinemascope or Standard Fixed Frame screens in a variety of colours and settings.

STARLIGHT CEILINGS

Raise the curtain on a whole new level of movie viewing with a Starlight Ceiling. The fibre optic starlights are installed into acoustic panels for a more sound conscious environment and then arranged for optimal aesthetic impact. So not only will your starlight ceiling look amazing, it will also help acoustically treat your room, enhancing the sound and atmosphere of your home theatre.

TAKE CONTROL IN YOUR HOME WITH Control4™

There are lots of 'smart' products available today, but it isn't until all of your devices work together in orchestration that you experience the real magic of a smart home. With Control4 you can coordinate all the technology in your home into a single system with one-touch control.

CREATE A HOME THAT CATERS TO YOU

Many people think home automation will allow you to turn on the TV, lower the blinds, and select the right inputs with a button press. While this is true, what truly separates Control 4 from the rest is in how it interacts without you telling it what you want.

Imagine your air conditioner automatically turning on during a hot day, just as you're leaving work. Allowing your home to be perfectly comfortable by the time you get there.

What if your hallway and bathroom lights could automatically turn on at 20% brightness during those midnight bathroom breaks? How good would it be if your home could turn off lights, lock doors, lower shutters and arm the alarm automatically as you leave each day? Or receive a notification when your children get home; or even simulate your living habits when you are away on holiday (lights turn on and off, music plays, etc).

All this and more is possible with Control4 from West Coast HiFi. Come in-store and let us demonstrate the infinite possibilities.

HOME THEATRE

Ready to impress your guests? Press the 'movie' button on your remote and the projector screen descends, the Blu-Ray player fires up, the surround sound is activated and the lights dim. Add some immersive, high-resolution audio and high-definition video and you'll have a jaw-dropping home cinema that rivals any commercial cinema.

VOICE-CONTROLLED LIGHTING

Ask Alexa to light the way when you walk into the house with your arms full. Set the mood by asking Alexa to lower the dining room lights to 40%. Or turn off every light at once from the comfort of your bed when it's time to turn in.

BLINDS & SHADES

Raise, lower or tilt individual window coverings or a grouping of motorised blinds or shades in your home. Control4 works with some of the world's leading shade manufacturers to ensure a seamless experience through manual control or by automated settings.

MULTI-ROOM VIDEO

Deliver superior sound, stunning video and an incredible entertainment experience in every room throughout the house. Share your entire movie library, streaming video and satellite channels in every room with no need for set-top boxes and multiple video sources.

EVERY ROOM AUDIO

Stream high-resolution music anywhere, or everywhere. Wake up in the morning listening to your favourite Pandora channel, or walk in the door at the end of a long day to your favourite Spotify playlist. With our Triad audio solutions, you'll enjoy an elevated sound experience anywhere from the kitchen to the pergola.

INTERFACE

How would you like to control and interact with your home? A hand held remote for your video experience, a touch screen to browse and play music, or a keypad to manage lights, shades, audio and more? Or would you prefer no interface at all, and rather use voice control? Whatever your choice, we can make it easy.

INTERCOM ANYWHERE

You're overseas and someone needs urgent access to your home. No problem. When they press the intercom on your gate or front door you can give them instant access using your smart phone or tablet. Or use it to call any touchscreen in the home to see how your kids are doing. It's the perfect blend of peace of mind and home control.

BOOK AN APPOINTMENT

Entertain, inform and increase performance with a tailored audio/video solution from West Coast HiFi

At West Coast HiFi we design and install custom audio visual solutions for any corporate or commercial situation. From the boardroom to the coffee shop, We can advise, plan, schedule, deliver, professionally install and provide operating advice. Whatever your corporate or commercial needs, we can tailor a solution to suit you.

Make your presentations come alive in the boardroom. Create dedicated music zones throughout the workplace. Inform and entertain with projected, large or multiple screen vision and sound systems. From security, energy management, lighting and climate control to multi-room audio and vision; discover full workplace integration that's all connected & easy to use.

DO YOUR WORK JUSTICE

Create the best experience in your business facility with West Coast Hi-Fi. We've been designing and installing custom audio visual solutions for over 30 years.

We will take the time to show you what is on offer, what system will suit your needs, answer any questions you have and give you an informed unbiased opinion.

OFFICE & BOARDROOMS

Impress your clients and your colleagues with the latest in office automation and audio visual technology. We can take the hassle out of getting connected, projecting data, conferencing and communicating with a tailored solution to suit your needs.

SPORTS AND EDUCATION

With years of commercial experience we understand the specialised needs to help integrate electronic work flow into your classrooms and lecture theatres, supply and install touch screens and PA systems with discrete ceiling speakers, enhance your presentations with projectors and screens, and more.

FITNESS AND RECREATION

The gym or rec centre is no place for lame AV equipment. You need a robust system designed to take the knocks and move people. Whatever your needs, from group fitness audio systems and background music, to custom screen mounts and portable management systems, we can help.

RETAIL AND HOSPITALITY

With the rapid rise of e-commerce, retailers are looking for new and innovative ways to engage with customers; new ways to entice them in store.

It all starts by creating an inviting environment. The right combination of audio, visual and lighting can transform your venue/store and enhance your customer experience. Discrete in-ceiling speakers add to a seamless audio environment, while big screen displays, digital signage, LED lighting and even DJ equipment further emphasise the desired result.

Hospitality is no different. From the conference room to the presidential suite; we can create an amazing experience for your guests.

We can even help deliver a more streamlined service for your guests. From the latest teleconference system for your corporate guests to a digital concierge, smart in-room technology for guest rooms, state-of-the-art audio solutions and even rooftop cinemas. Whatever you need, our commercial installation experts have the experience to create a solution to suit your unique requirements.

Add comfort and piece of mind with automated climate control, lighting, security and surveillance systems.

Should you ever find a competitor offering the same item advertised at a lower price - and available in a physical store in Western Australia - we'll match that price. Guaranteed.**

To ensure you get the right solution for your home, we created sound rooms in our stores so you can test for sound quality, detail and balance, and appreciate the design and functionality of the products and brands we offer.

West Coast HiFi offer a range of finance options to suit your needs. Our 24 Months Interest Free option is available all year. Alternative options exist and vary at different times of the year. Please ask our sales team for assistance.

Every day of the year, our stores offer a range of clearance items with massive savings across a broad selection of brands and products. Each store carries different clearance stock at any one time. Check out the Clearance Centre on our website or ask in-store.

As the 'Experts in Home Cinema' we have our own teams of professional installers who can deliver, set up and install your new home cinema and help with operating advice to give you the ultimate home entertainment experience.

With our obligation-free initial consultation, our audio-visual specialists offer unbiased recommendations and solutions that ensure the final result is unique to you, your environment and lifestyle.

Notes

**Guarantee applies where the other retailer's final price, inclusive of delivery, taxes, fees and charges, is lower than our price on the day that the price guarantee is requested and that the item is available in a West Coast HiFi store.
